Volkswagen ID.4 joins Europcar's growing EV Fleet

Spacious SUV with long range appeals to new and experienced electric drivers

Further expanding its electric fleet, Europcar Mobility Group UK has added the VW ID.4, enabling drivers to access the right vehicle for every journey. The spacious family SUV has achieved an excellent safety score and features a good range of up to 222/351 miles with its 52/77kWh battery, making it a practical choice for leisure or business drivers.

With its modern design, practicality and the latest technology on board, renting the ID.4 from Europcar provides inexperienced EV-drivers with a commitment free way to discover electric driving. It also provides fleet managers with a strong option for commitment-free and sustainable mobility, enabling compliance with Scope 3 emissions requirements. And like all electric VW models, the ID.4 is delivered to customers as a net carbon neutral product and incorporates recycled materials into its design.

Plus, the VW ID.4 has been added to the Europcar Flex Model Choice fleet, providing businesses with the flexibility of rental and the vehicle model certainty of leasing. Specific makes and models from Europcar's comprehensive BEV and PHEV fleet, including the VW ID.4, can be booked for rental for a minimum of 3 months and up to 12 months at a fixed monthly rate. This enables employers to accurately allocate vehicles and forecast Benefit-in-Kind tax expenses.

"We are delighted to add the ever-popular ID.4 to our electric fleet, including Flex Model Choice, which enables businesses and their drivers to select the exact make and model they require," commented Tom Middleditch, Sustainability spokesperson, Europcar Mobility Group UK. "Offering a comfortable interior, cutting-edge tech and an impressive range, it is a great choice for a family holiday or a business trip.

"Designed to meet the needs of every journey, our growing portfolio of low and zero tailpipe-emissions vehicles is providing private motorists and businesses with access to sustainable mobility without having to make a long-term commitment. And we believe that's critical as financial pressures continue to challenge personal and business budgets.

About Europcar Mobility Group

Europcar Mobility Group is a global mobility player, with 75 years of mobility services expertise and a leading position in Europe.

"We help to change the way you move" is what we stand for and brings us together. More than ever, we're committed to delivering simple, seamless, innovative solutions that make mobility easy, enjoyable and increasingly eco-friendly.

To do this, we offer to individuals and businesses a wide range of car and van rental services, be it for a few hours, a few days, a week, a month or more, on-demand or on subscription, relying on a fleet of more than 280.000 vehicles, equipped with the latest engines including an increasing share of electric vehicles.

Our brands address differentiated needs, use cases and expectations: Europcar® - a global leader of car rental and light commercial vehicle rental, Goldcar® - a frontrunner at providing low-cost car rental services in Europe, Fox-Rent-A-Car®, one of the main players in the car rental market in the US, with a "value for money" positioning, and Euromobil®, a German car rental player. The Group also operates the "myEuropcar" platform for vehicle subscription.

Customers' satisfaction is at the heart of the Group's ambition and that of our more than 9,000 employees, everywhere we deliver our mobility solutions, thanks to a strong network in over 130 countries (including 15 wholly owned subsidiaries completed by franchisees and alliance partners).
